

INDUSTRIAL BATTERY CHARGERS

OUR FLEXIBLE CHARGER RANGE IS ITALIAN DESIGNED AND MANUFACTURED, AND CATERS FOR ANY TYPE OF MATERIALS HANDLING APPLICATION

CONVENTIONAL APPLICATION

- Single daily usage shift applications
- Designed for standard **OVERNIGHT** forklift battery charging

FEATURES

- Cost effective Transformer Charger
- Floor Standing
- Extremely Robust and Reliable
- Simple plug and play design
- User Interface with LED indication
- Full electronic protection
- Automatic equalisation and refresh
- IP21 rated enclosure

- Floor standing

CONVENTIONAL HF APPLICATION

- Single daily usage shift applications
- Designed for standard **OVERNIGHT** forklift battery charging

FEATURES

- Reliable High Frequency design, tried and tested in Australia for many years
- Small size, wall mountable by design
- Integrated user Interface
- Highly efficient Charge profiles to suit GEL, AGM and Lead Acid Industrial Batteries
- Programmable to suit varying Battery capacities if required

- Wall Mounted

FAST CHARGER APPLICATION

- Single shift to **MULTIPLE SHIFT** applications
- Available in Opportunity and Fast charge formats
- Available in IP54 Weatherproof Enclosure
- Can be supplied in Multi-Voltage output if required

FEATURES

- Designed for Opportunity Charging at any time of the day to extend daily usage
- Fast Charger option (+25-40% Start rate) supplied with integrated closed loop communication (BMODr) fitted to Battery
- Real time clock and programming enables Battery to Charger communication and precise Battery Temperature and Voltage control
- Extremely robust and reliable design
- Suits multi shift operations / + 8 Hour daily

Fast Charge Battery Management System

- Floor standing
